*STEM dersimizde
heyecan dolu anlar yaşadık!*

**COLORS,
NUMBERS,
&
FUN**

Bugün yaz okulumuzda hem el becerilerimizi hem de bilimi öne çıkaran harika bir gün geçirdik!

Yaşam Becerileri dersimizde geçmişe keyifli bir yolculuk yaparak kendi ellerimizle renkli kilimler dokuduk ve harika tasarımlar ürettik.

Yaşam Becerileri ve STEM

Ardından STEM dersimizde heyecan dolu anlar yaşadık; tamamen kendi hayal gücümüzle tasarladığımız roketlerimizi başarıyla gökyüzüne uçurduk.

Colors, Numbers & Fun

We reviewed colors and numbers through a fun umbrella craft activity. Students colored and decorated their umbrellas using different colors and counted the raindrops in English.

This enjoyable activity helped reinforce color and number vocabulary while developing fine motor skills and creativity.

At the end of the activity, students proudly presented their colorful umbrella crafts to the class and talked about the colors and numbers they used.

Animal Adventures

in English

We started our mini drama lesson by talking about different animals and their habitats.

Students identified where animals live by matching them with places such as the forest, ocean, desert, jungle, and farm. Then, they pretended to be different animals, using simple movements and sounds while acting out their natural habitats. Through this fun role-play activity, students practiced new vocabulary, improved their speaking skills, and developed their imagination and confidence in using English. The lesson encouraged active participation, creativity, and a better understanding of the relationship between animals and the environments they live in.
